Dear Mr Warsinggh,

Thank you for sending your manuscript Association of superoxide dismutase enzyme with staging and grade of differentiation colorectal cancer: A cross-sectional study for consideration to Annals of Medicine and Surgery. When should I expect to receive the Editor's decision?

For Annals of Medicine and Surgery, the average editorial time (in weeks) from submission to first decision is: 5.07 and from submission to final decision is: 10.13.

What happens next?

Here are the steps that you can expect as your manuscript progresses through the editorial process in the Editorial Manager (EM).

1. First, your manuscript will be assigned to an Editor and you will be sent a unique reference number that you can use to track it throughout the process. During this stage, the status in EM will be "With Editor".
2. If your manuscript matches the scope and satisfies the criteria of Annals of Medicine and Surgery, the Editor will identify and contact reviewers who are acknowledged experts in the field. Since peer-review is a voluntary process, it may take some time. Once the Editor has received the minimum number of expert reviews, the status will change to "Required Reviews Complete".
3. It is also possible that the Editor may decide that your manuscript does not meet the journal criteria or scope and that it should not be considered further. In this case, the Editor will immediately notify you that the manuscript is not suitable for publication.

For a more detailed description of the editorial process, please see Paper Lifecycle from Submission to Publication: [http://help.elsevier.com/app/answers/detail/a\\_id/160/p/8045/](http://help.elsevier.com/app/answers/detail/a_id/160/p/8045/)

How can I track the progress of my submission?

You can track the status of your submission at any time at <http://ees.elsevier.com/AMSU>

Once there, simply:

1. Enter your username: Your username is: <http://ees.elsevier.com/AMSU/>  
If you need to retrieve password details, please go to: <http://ees.elsevier.com/AMSU/>
2. Click on [Author Login]. This will take you to the Author Main Menu
3. Click on [Submissions Being Processed]

Many thanks again for your interest in Annals of Medicine and Surgery.

Kind regards,

Dr. Riaz Agha

Title: RELATION OF BRAF V600E, AND KRAS MUTATIONS IN STOOLSAMPLES FOR COLORECTAL CANCER: A CROSS-SECTIONAL STUDY

Dear Mr Warsinggih,

Thank you for your recent submission to Annals of Medicine and Surgery.

Before we send your manuscript out for review, we kindly request that you make the following changes/corrections.

Article title

The study design should be included at the end of the title, e.g. Case Report. Please edit the title accordingly.

Registration of Research

The World Medical Association's Declaration of Helsinki 2013 states in article 35: 'Every research study involving human subjects must be registered in a publicly accessible database before recruitment of human participants should be registered prospectively, but failing that retrospectively. There are many places to register your research, and you can choose which is the most suitable for your needs:

\*Clinicaltrials.gov - for all human studies - free

\*Chinese Clinical Trial Registry [chictr.org.cn](http://chictr.org.cn) - for all human studies - free

\*Researchregistry.com - for all human studies - charge

\*ISRCTN.com - for all human studies - charge

\*Prospero - for systematic reviews - free

\*There are many national registries approved by the UN that can be found, please refer to the Guide for Authors.

Elsevier does not support or endorse any registry.

Once registered, you will need to submit your assigned Unique Identifying Number (UIN) from your registration body as a mandatory part of your submission, please add the number to the Author Form.
