Dear Author,

We have received the final comments of your manuscript from our editorial board member. Following are their suggestions-

*"The authors have addressed properly all the concerns raised by the reviewers and modified the manuscript accordingly.*

*Therefore, the manuscript is acceptable, conditionally to some other improvements, listed below:*

- 1) "which higher than other vegetable oils including OO", the verb form "is" is missing in this sentence;*
- 2) please avoid using "boiling point": smoke point or burning point is more correct;*
- 3) "The mechanism gamma-oryzanol decreases blood lipid level by inducing the release", consider to rephrase, deleting "The mechanism" or inserting a verb*
- 4) Please remove arachidonic acid in the 3rd line of the Discussion, as this is not a monounsaturated fatty acid*
- 5) "This underlies the absence of significant significance", please remove "significant"*

We kindly request you to revise the file as per their comments and send us the final version. Once done please send us the required at your earliest.

Best Regards

**Sobiya Sultan**

Dear Dr. Citra,

Thanks for your response. We have forwarded the manuscript for publication process, soon it will appear in our coming issue link.

Please summarize in two lines what your paper is about and why it's essential in just one or two sentences. This will help in attracting readers and increasing the readership of your article on our social media channels.

Best Regards
