Annals of Medicine and Surgery

Title: Telemedicine for Detecting Brugada Syndrome in Eastern Indonesia a Diagnostic Study of a Rare Disease

Dear Dr. Amir,

Thank you for your recent submission to Annals of Medicine and Surgery.

Before we send your manuscript out for review, we kindly request that you make the following changes/corrections.

Article title

The study design should be included at the end of the title, e.g. Case Report. Please edit the title accordingly.

Registration of Research

The World Medical Association's Declaration of Helsinki 2013 states in article 35: 'Every research study involving human subjects must be registered in a publicly accessible database before recruitment of the first subject'. The Editors of AMS require that all types of research studies involving human participants should be registered prospectively, but failing that retrospectively. There are many places to register your research, and you can choose which is the most suitable for your needs:

*Clinicaltrials.gov - for all human studies - free

*Chinese Clinical Trial Registry chictr.org.cn - for all human studies - free

*Researchregistry.com - for all human studies - charge

*ISRCTN.com - for all human studies - charge

*Prospero - for systematic reviews - free

*There are many national registries approved by the UN that can be found, please refer to the Guide for Authors.

Elsevier does not support or endorse any registry.

Once registered, you will need to submit your assigned Unique Identifying Number (UIN) from your registration body as a mandatory part of your submission, please add the number and the URL of the registration site to the Author Form.

Double anonymized review

This journal uses double anonymized review, which means the identities of the authors are concealed from the reviewers, and vice versa. To facilitate this, please include the following separately:

Title page (with author details): This should include the title, authors' names, affiliations, acknowledgements and any Declaration of Interest statement, and a complete address for the corresponding author including an e-mail address.

Blinded manuscript (no author details): The main body of the paper (including the references, figures, tables and any acknowledgements) should not include any identifying information, such as the authors' names or affiliations.

To make these amendments, please do the following:

1. Go to this URL: <https://www.editorialmanager.com/amsu/>

2. Enter your login details

3. Click [Author Login]

This takes you to the Author Main Menu.

4. Click [Submissions Needing Approval by Author]

5. Click [Edit Submission]

Please make the necessary changes, rebuild the PDF of your submission, and resubmit it.

Editor/Reviewers' comments:

Managing Editor

Please can you make the following changes/checks:

1) Ensure your work is fully compliant with the STROCCS criteria www.strocsguideline.com, which should be cited within the methods section of your article and please submit a completed STROCCS checklist stating the page numbers where you completed each item (your work will be returned if this is not done).

Please also ensure your methods section states that the work has been reported in line with the STROCCS criteria and cite the paper as follows:

Agha R, Abdall-Razak A, Crossley E, Dowlut N, Iosifidis C and Mathew G, for the STROCCS Group. The STROCCS 2019 Guideline: Strengthening the Reporting of Cohort Studies in Surgery. International Journal of Surgery 2019;72:156-165.

2) Please ensure you submit your work with a Research Registry UIN: e.g. from www.researchregistry.com – it can't progress without being registered – even if its retrospective research. Please ensure you also state your registration unique identifying number (UIN) in your methods section and reference it including a hyperlink to it.

3) Please go through your paper and proofread it to correct spelling, grammar and syntax errors. If you need our author support services, you can access them here: <https://www.ijspg.com/services/author-support>

4. If you haven't already, please include your "highlights" which are 3-5 bullet points summarising the novel aspects and/or learning points (maximum 85 characters, including spaces, per bullet point).

5. Please add the following statement above references:

Provenance and peer review
Not commissioned, externally peer-reviewed

Reviewer #1: - Please detail any patient exclusion criteria in the methodology.

In compliance with data protection regulations, you may request that we remove your personal registration details at any time. (Use the following URL: <https://www.editorialmanager.com/amsu/login.asp?a=r>). Please contact the publication office if you have any questions.

Thank you for your submission to Annals of Medicine and Surgery

Dear Dr. Amir,

Thank you for sending your manuscript Telemedicine for Detecting Brugada Syndrome in Eastern Indonesia a Diagnostic Study of a Rare Disease for consideration to Annals of Medicine and Surgery. Please accept this message as confirmation of your submission.

When should I expect to receive the Editor's decision?

For Annals of Medicine and Surgery, the average editorial time (in weeks) from submission to first decision is: 5.07 and from submission to final decision is: 10.13.

What happens next?

Here are the steps that you can expect as your manuscript progresses through the editorial process in the Editorial Manager (EM).

1. First, your manuscript will be assigned to an Editor and you will be sent a unique reference number that you can use to track it throughout the process. During this stage, the status in EM will be "With Editor".

2. If your manuscript matches the scope and satisfies the criteria of Annals of Medicine and Surgery, the Editor will identify and contact reviewers who are acknowledged experts in the field. Since peer-review is a voluntary service, it can take some time but please be assured that the Editor will regularly remind reviewers if they do not reply in a timely manner. During this stage, the status will appear as "Under Review".

Once the Editor has received the minimum number of expert reviews, the status will change to "Required Reviews Complete".

3. It is also possible that the Editor may decide that your manuscript does not meet the journal criteria or scope and that it should not be considered further. In this case, the Editor will immediately notify you that the manuscript has been rejected and may recommend a more suitable journal.

For a more detailed description of the editorial process, please see Paper Lifecycle from Submission to Publication: http://help.elsevier.com/app/answers/detail/a_id/160/p/8045/

How can I track the progress of my submission?

You can track the status of your submission at any time at <http://ees.elsevier.com/AMSU>

Once there, simply:

1. Enter your username: Your username is: muzakkir

If you need to retrieve password details, please go to: http://ees.elsevier.com/AMSU/automail_query.asp

2. Click on [Author Login]. This will take you to the Author Main Menu
