Paper Organization	Good

Detailed Comments:

This article is for building local language preservation tools. Indigenous languages need to be supported to avoid language death. Application scripts for indigenous languages are some of the search solutions.

Very interesting to see that there is a R&D here. has a series of cyclical research and development steps. Additionally, each step to be performed should refer to the results of the previous step. Therefore, a new educational product will be obtained at the end of every stage or step applied. The lontara application model has been created.

My comments.

It is necessary to expand the links in the field of R&D software development.

For example,

Nikulchev, E. et al. (2021). Technology stack selection model for software design of digital platforms. Mathematics, 9 (4), 308.

Garousi, V . et al. (2019) Aligning software engineering education with industrial needs: A meta-analysis. J. Syst. Softw., 156, 65–83.

Lemos, O.A.L . et al. (2018) The impact of Software Testing education on code reliability: An empirical assessment. J. Syst. Softw., 137, 497-511.
Gusev, A. et al. (2020). Effective Selection of Software Components Based on Experimental Evaluations of Quality of Operation. Engineering Letters, 28 (2), 420-427.

Grammar, punctuation, or spelling errors:

Minor

Dear Author(s),

Congratulations, your submitted paper titled "Computerization of Local Language Characters; An Innovative Model for Language Maintenance in South Sulawesi, Indonesia" has been reviewed and accepted for publication in the [International Journal of Advanced Computer Science and Applications \(IJACSA\) - Volume 12 No 12 December 2021](#).

Registration and Publication Fee Payment

You may now proceed with the registration for paper publication at <https://thesai.org/Home/FeePayment>. If you do not have any credit/debit card available or if the payment process fails, please get in touch with us.

Kindly register before **20 December 2021** for timely publication and indexing of your paper.

Open Access

All papers published by the International Journal of Advanced Computer Science and Applications are made freely and permanently accessible online immediately upon publication, without any subscription charges. All published articles are assigned a DOI.

Indexing

Upon publication of papers, our next step will be to submit all published papers in International Indexes and University Libraries. Some of the indexes include **Web of Science**, **Scopus (Q3)**, Inspec, Ebescos, ProQuest, Microsoft Academic, WorldCat. IJACSA is also indexed in the [Clarivate Emerging Sources Citation Index](#) and is also listed in the Master Journal List.

Reviewer Feedback

All submitted manuscripts were subject to a double-blind peer review process. The Editorial Board has decided that the reviewers' feedback will be emailed to the author(s) after registration.

Wishing you all the best and hope to hear from you soon,

Regards,
Editor

Dear Yusring Sanusi Baso,

You have successfully registered. You will soon receive reviewer feedback concerning your paper with details about camera ready submission. We appreciate your submission towards the December Issue. We would encourage future submissions from you.

International Journal of Advanced Computer Science and Applications

IJACSA

Volume 12 No. 12, December 2021

Tentative Publication Date: 31 December 2021

The Publication link will be emailed to you when the issue has been published.

Please do not hesitate to contact us in case of any further queries or discussions.

Regards,

Editor

Dear Author,

Please find the attached Reviewer Feedback of your manuscript "Computerization of Local Language Characters; An Innovative Model for Language Maintenance in South Sulawesi, Indonesia".

Kindly revise your paper as per the feedback attached here with and send us an updated version following the SAI Paper format (attached). Please submit your camera ready paper (both .docx and .pdf format) on or before December 20, 2021 for publication in IJACSA December 2021.

Tentative Publication Date - 31 December 2021

If you have prepared your paper in Latex, there is no need to submit a .docx file (Submit Latex sources with .pdf file). You may download the Latex Paper Format from <http://thesai.org/Home/Downloads>

Our publication team is experienced in handling most of the formatting issues in the manuscripts. While there are instances when an issue cannot be resolved, only in those cases the manuscript may be shifted to the next issue. There will be no other extra charges nor there will be any liabilities. We are fully committed to the satisfaction of the authors and are always there to assist you in the best possible manner.

Thank you for considering IJACSA as a medium for publication of your work.

Regards,
Editor

Dear Editor

Thank you very much for the review given by the editorial team. Suggested points for improvement have been edited, as follows:

Reviewer Feedback Form _1<> The keyword "Innovative model" did not appear in the abstract. ***I have edited***

<> Include a few introductory lines to indicate what the study will cover, outlining the purpose and scope.

I have edited<> All the gures should be referred in the text g. 1 or g. 2 instead of following gure / above gure / below gure. ***I have edited***

<> Figure caption should be placed below the gure as per formatting guidelines. I have edited

<> Figures are NOT clearly visible, please replace the gures. ***I have edited***<> All the Tables should be referred in the text. ***I have edited***

As for the points about references that are more than 5 years old, they have not been changed because they are historical references that are difficult to replace.

Reviewer Feedback Form _2

Each stage of R&D and its results have been discussed in this article. Each stage always refers to the previous stage until the final stage which describes the final product, namely an innovative model of local language maintenance.

I attached the edited file. I really hope that this revision has fulfilled the requirements for the publication of articles in the IJACSA Journal.

With all pleasure, I await further information from the Editor Team

Best Regards

Yusring Sanusi Baso

Dear Author(s),

Your camera ready paper titled "Computerization of Local Language Characters" was sent to the publication team for final review and processing and there are some shortfalls noticed in your camera ready submission:

- Figures and tables should be referred in the text.

Kindly make the suggested corrections **in the attached file only** and submit a revised version of your paper on or before 18 December 2021 to be considered in IJACSA December 2021.

Looking forward to your response.

Regards,
Editor

Dear Editor IJACSA

Thanks for the editor's suggestion. I've added some words in the text to reference the tables and images. We have attached the revised file again.

Hopefully, this revision has met the requirements for publication at IJACSA. With pleasure, we are still waiting for further instructions from the editorial team.

Best regards

Dear editorial team
Thank you very much for your response.

We really appreciate the response, review, and feedback given by the IJACSA editor team to us as authors. These responses, reviews, and feedback will improve the quality of the articles we submit to IJACSA. On the other hand, responses, reviews, and feedback will increase the trust of the authors in the quality services from IJACSA. Hopefully, in the future, IJACSA will be more victorious and successful.

We do hope our article could be published soon this month. Wish you all the best and good luck
Best regards
Yusring Sanusi Baso
