Dear Hasbi

Manuscript. Number: WEB20606 Title: EMPLOYMENT OPPORTUNITIES AND WOMEN'S REVENUE IN AGRICULTURAL MODERNIZATION, Thank you for submitting your manuscript to Webology. The reviewers recommend major revisions are required before publication can be considered. We ask that you respond to each reviewer comment by either outlining how the criticism was addressed in the revised manuscript or by providing a rebuttal to the criticism. To submit your revised manuscript, please send by email. Your revision due date is Dec 29, 2022. Reviewer comments:

Reviewer: This paper is focusing on the whole income generating activities involved in revenue women to analyse agricultural modernization and their influence on the economy. While there are merits for this study, my recommendation, for now, is MAJOR REVISION because there are some issues that need to be addressed. There are issues identified from the manuscript as follows;

i) Introduction

- Problem statement is not clear in this section. It should be significant enough to contribute to the existing body of research. Back up your claims and propose a solution.
- "There has been a minimal study on women's revenue in agricultural modernization, and there is a lack of information". Then what is your proposed solution?

ii) Results and Discussion

- Be concise and make your points clearly.
- Subheading of "Issues affecting it" is inappropriate.

iii) Conclusion

- The conclusions should better explain what the novelty of the paper is, merit in this research. What is the difference with previous index? Highlight any improvements.

**Best Regards,
Chief Editor, Webology**
