[STJSSA] Submission Acknowledgement

Editorial Team of Sains Tanah <jurnal@mail.uns.ac.id> Tue, Dec 10, 2019 at 2:55 PM
To: Dr Risma - Neswati <neswati76@gmail.com>

Dear Dr Risma - Neswati:

Thank you for submitting the manuscript, "Land Use Conflict of Agricultural Dryland: an Analysis Using GIS and Land Capability Evaluation Specific for Humid Tropics" to SAINS TANAH - Journal of Soil Science and Agroclimatology. With the online journal management system that we are using, you will be able to track its progress through the editorial process by logging in to the journal web site:

Manuscript URL: <https://jurnal.uns.ac.id/tanah/author/submission/37824>
Username: rismaneswati_1976

Should you have any questions about the system or other functions please do not hesitate to contact us (<https://jurnal.uns.ac.id/tanah/about/contact>)..
Thank you for considering STJSSA journal as a venue for your work.

Best regards.

[STJSSA] Editor Decision (REVISIONS REQUIRED)

Editorial Team of Sains Tanah <jurnal@mail.uns.ac.id> Tue, May 26, 2020 at 3:16 PM
Reply-To: "Dr. Komariah Komariah" <komariah23@gmail.com>
To: Dr Risma - Neswati <neswati76@gmail.com>

Dear Dr Risma - Neswati:

We have reached a decision regarding your submission to SAINS TANAH - Journal of Soil Science and Agroclimatology, "Land Use Conflict of Agricultural Dryland: an Analysis Using GIS and Land Capability Evaluation Specific for Humid Tropics".

Our decision is: Revisions Required (due date is: June 9, 2020)

Please revise your article according to the comments. We kindly ask you to resubmit the corrected article under the same identification number. To do so, login into the system, click on this article, and fill in the "Upload Author Version" input field.

The revised version must include highlighted changes and modifications recommended in the first revision to ensure that all reviewer(s)' comments were considered.

Should you have any questions about the system or other functions please do not hesitate to contact us.

Best regards.

Reviewer A:
PAPER N0. 37824-93253-2-RV REVIEWER'S REPORT

LAND USE CONFLICT ON AGRICULTURAL DRYLAND: AN ANALYSIS USING GIS
AND LAND
CAPABILITY EVALUATION SPECIFIC FOR HUMID TROPICS

TITLE
The title clearly describes the paper.
ABSTRACT

The study is important to support the knowledge in the research area.

Note the sentence: Line 10 to 15 i.e. These results were..... land area in 5,711 or 10.3%.

It's too long and it's not very clear to understand.

INTRODUCTION

This provide enough information regarding the previous studies. Minor grammatical errors must be corrected.

MATERIALS AND METHODS

Line 9. This study was used as a method.....several stages, consists of:

That sentence is not clear so check it.

The article presents enough information of the materials and methods and also it is an appropriate for problem-solving.

RESULTS

I) Under the Land Capability Evaluation of Jeneponto Regency, you mentioned that Land capability analysis were 60% of land.....

li)How did you come by 60%? Did it come from Table 1? Dryland agriculture represented 13.4% and Mixed dryland with shrubs represented 47.6% Explain that.

lii) Under the Distribution of land use conflict in Jeneponto Regency, Line2, you mentioned determining the ZONING ZONE of space. What do you mean by zoning zone space?

Iv) The soil profiles are labelled H e.g. H22, H25(Figs 6 and 7) etc. But in Table 3. there are no H labels only numbers 1-30. So, you have to define H in the NOTE under Table 3.

DISCUSSION

The author cited enough literature to support the results.

CONCLUSION

The conclusion meets the purpose of the study. However, from Line 5 to the end it is difficult to understand the explanation.

ENGLISH

The article is written in good English but some explanations are not easy to understand. A lot of grammatical errors. Especially the use of the following: to be, is, are, was, were.

I recommend proofreading

ADVICE

After proofreading Accept the paper for publication.

Dear Dr Risma - Neswati:

We have reached a decision regarding your submission to SAINS TANAH - Journal of Soil Science and Agroclimatology, "Land Use Conflict of Agricultural Dryland: an Analysis Using GIS and Land Capability Evaluation Specific for Humid Tropics".

Our decision is: Resubmit for Review (due date is: March 13, 2020)

Your article is very interesting, it discusses land use conflict of agricultural dryland using GIS and land capability evaluation specific. The article brings new findings to our journal. However, we found some points need to be revised, like the following:

- Please follow our guideline format, access the template at <https://drive.google.com/file/d/1wumhBFwFW1teLhc0uHQYJxn-zYzZi1D0/view>
- Please separate Results and Discussion. Kindly carefully read our guidelines.

Please revise your article according to the comments. We believe you can revise it quickly before the due date.

We kindly ask you to resubmit the corrected article under the same identification number. To do so, login into the system, click on this article and fill in the "Upload Author Version" input field.

The revised version must include highlighted changes and modifications recommended in the first revision to ensure that all reviewer(s)' comments were considered.

Should you have any questions about the system or other functions please do not hesitate to contact us.

Best regards.

Dear Dr. Risma - Neswati:

We have reached a decision regarding your submission to SAINS TANAH - Journal of Soil Science and Agroclimatology, "Land Use Conflict of Agricultural Dryland: an Analysis Using GIS and Land Capability Evaluation Specific for Humid Tropics".

Our decision is: Revisions Required (due date is: JUNE 20, 2020)

NOTES:

Thank you for your response to the reviewers' comments and suggestions. Please pay attention to the following issues.

1. We cannot evaluate your revision on responding to the reviewers' comments and suggestions, because you did not **HIGHLIGHT** the parts you revised. Please **HIGHLIGHT** the words or sentences you revised.
2. Separate all the Tables and Figures from the text body.
3. Check all the comments in the manuscript and revise it accordingly.

We believe you can make a quick revision on it before the due date. Hopefully, we can publish your article in this June edition.

Should you have any questions about the system or other functions please do not hesitate to contact us.

Best regards.

Reply-To: "Dr. Komariah Komariah" <komariah23@gmail.com>
To: Dr Risma - Neswati <neswati76@gmail.com>

Dear Author,

Thank you for significantly revised the manuscript.
We are very near to the final step of the article processing.
Now, please complete the following instructions.

1. In the materials and method, we found the following sentences:
"This study was a qualitative and quantitative study which carried out through several stages, as follow:"
Please change the stages (No. 1 to No. 6) become paragraph, not numbering.
So, it will be:
"This study was a qualitative and quantitative study which carried out through several stages. The first stage was collecting the primary data from field surveys and questionnaires interviews, while secondary data (digital data and documents of the Jeneponto Regional Spatial Land Use Planning Regulations) was obtained from Bappeda Jeneponto Regency (2012)..... etc."
2. Please delete all the comments in the Reviewing pane.
3. According to the reviewers' suggestion, this manuscript cannot be published in the present form for the International Journal of Soil Science and Agroclimatology. Please improve the English of this manuscript using the proofreading service of a native speaker. Contact our partner's proofreading service (Akses Sains Nasional, E-mail address: asn.office17@gmail.com, Whatsapp/Phone: +62 882-2950-2650). If you prefer to ask for another proofreading service, please attach the certificate of the Native Proofreading when resubmitting the manuscript.

We believe you can make a quick revision for this.
Looking forward for your resubmission.

Best regards.

Dr Risma - Neswati:

We have now copyedited your submission "Land Use Conflict of Agricultural Dryland: an Analysis Using GIS and Land Capability Evaluation Specific for Humid Tropics" for SAINS TANAH - Journal of Soil Science and Agroclimatology. To review the proposed changes and respond to Author Queries, please follow these steps:

1. Log into the journal using URL below with your username and password (use Forgot link if needed).
2. Click on the file at 1. Initial Copyedit File to download and open copyedited version.
3. Review the copyediting, making changes using Track Changes in Word, and answer queries.
4. Save file to desktop and upload it in 2. Author Copyedit.
5. Click the email icon under COMPLETE and send email to the editor.

This is the last opportunity that you have to make substantial changes. You will be asked at a later stage to proofread the galleys, but at that point only minor typographical and layout errors can be corrected.
