Andi Kurnia Bintang, Muhammad Akbar , Muhammad Yunus Amran, Hammado Hammado (Author):

We have reached a decision regarding your submission to Open Access Macedonian Journal of Medical Sciences, "THE EFFECT OF HIGH AND LOW-FREQUENCY REPETITIVE TRANSCRANIAL MAGNETIC STIMULATION THERAPY ON SERUM BDNF LEVEL AND MOTOR ABILITY IN LATE ONSET OF ISCHEMIC STROKE PATIENTS: A SINGLE CENTER STUDY".

Our decision is to: Revise your manuscript until December 10, 2019 and submit on the OAMJMS website.

Prof. Dr Mirko Spiroski

Major Revision

Would you be willing to review a revision of this manuscript?

Yes

Comments to the Author

The introduction best be concise, sharp and focused.

The design of the study should be explained more elaborate, in case of cohort, clinical or else. The said experimental would be better if explained in more specific category regarding study design.

What are the inclusion and exclusion criteria to be exact? The said samples didnt tell any impairment or handicapped it had. The results would be affected with the different nature of impairment the patient had. It'd be better to use standardized handicapped tools in the inclusion/exclusion criteria.

The RESULTS section should strictly just data. Dont mix it with redundancy repeat on DISCUSSION.

The practical usefulness of the study is in question.

Thank you

Minor Revision

Would you be willing to review a revision of this manuscript?

Yes

Comments to the Author

This is an interested study. But I think the author should do some correction :

1. There is a few misstypo and a few mistakes in the grammar.
2. In the title the author mention that this study want to know about motor ability in late onset of ischemic stroke patients, but in population and samples they mention that "the onset time of less than 6 months". Is this mean that they also included acute stroke? Because the onset of acute stroke is about 7-10 days (this is also less than 6 month)

**Dear Professor Mirko Spiroski, MD, PhD.
Editors-in-Chief
Open Access Macedonia Journal of Medical Science**

First of all, we would like to apologize for sending this email again without any priority notice.

On behalf of all authors and With all due respect, we would like to inform you that we already submitted our revision manuscript with the **number of manuscript submission is 3531-Article Text-15080-1-2-20190814**, entitled "**THE EFFECT OF HIGH AND LOW-FREQUENCY REPETITIVE TRANSCRANIAL MAGNETIC STIMULATION THERAPY ON SERUM BDNF LEVEL AND MOTOR ABILITY IN ISCHEMIC STROKE PATIENTS: A SINGLE CENTER STUDY**".

We also attached the Revision Manuscript.

Dear Professor Mirko Spiroski, MD, PhD.,
We really, really apologize about this inconvenience situation.
We would like to convey thank you very much for your help and assistance.

Best Regards,

Muhammad Yunus AMRAN, M.D., Ph.D., FIPM, FINR

NEUROLOGIST & NEURO-INTERVENTIONIST

Lecturer and Clinical Associate Professor

Department of Neurology, Medical Faculty of Hasanuddin University,

Brain Centre, Dr. Wahidin Sudirohusodo General Hospital, and
