The following points were confirmed during submission:

1. Computers is an open access journal with publishing fees of 1400 CHF for an accepted paper (see <https://www.mdpi.com/about/apc/> for details). This manuscript, if accepted, will be published under an open access Creative Commons CC BY license (<https://creativecommons.org/licenses/by/4.0/>), and I agree to pay the Article Processing Charges as described on the journal webpage (<https://www.mdpi.com/journal/computers/apc>). See <https://www.mdpi.com/about/openaccess> for more information about open access publishing.

Please note that you may be entitled to a discount if you have previously received a discount code or if your institute is participating in the MDPI Institutional Open Access Program (IOAP), for more information see <https://www.mdpi.com/about/ioap>. If you have been granted any other special discounts for your submission, please contact the Computers editorial office.

2. I understand that:

a. If previously published material is reproduced in my manuscript, I will provide proof that I have obtained the necessary copyright permission. (Please refer to the Rights & Permissions website: <https://www.mdpi.com/authors/rights>).

b. My manuscript is submitted on the understanding that it has not been published in or submitted to another peer-reviewed journal. Exceptions to this rule are papers containing material disclosed at conferences. I confirm that I will inform the journal editorial office if this is the case for my manuscript. I confirm that all authors are familiar with and agree with submission of the contents of the manuscript. The journal editorial office reserves the right to contact all authors to confirm this in case of doubt. I will provide email addresses for all authors and an institutional e-mail address for at least one of the co-authors, and specify the name, address and e-mail for invoicing purposes.

If you have any questions, please do not hesitate to contact the Computers editorial office at computers@mdpi.com

Dear Dr. Lawi,

Thank you very much for submitting your manuscript to Computers.

There are some questions that need your confirmation:

1. APC (1260 CHF), please see the details below.
2. Could you please let us know if all figures/tables in the manuscript are your original work? Please note that if material from other publications is reproduced in your manuscript, please provide proof that you have obtained the necessary copyright permission.
3. After our careful checking. We noticed that you have chosen "Open Review". It means the review reports and your responses, including that of your original submission, will be published alongside your paper. Would you confirm this?

We confirm that, if accepted for publication, the following Article Processing Charges (APC), 1260 CHF, will apply to your article:

Journal APC: 1400 CHF
Institutional Open Access Program (IOAP): Kyushu Institute of Technology
IOAP Discount: 10%
Total APC: 1260 CHF

Please note that you may be entitled to a discount if you have previously received a discount code. Also note that reviewer vouchers must be applied before acceptance for publication. Vouchers can no longer be applied once an APC invoice has been issued. Reviewer vouchers, IOAP discounts, and vouchers offered by the Editorial Office cannot be applied to one invoice at the same time. You need to select one type of voucher to use. If you need to add any discount or replace the current discount with another type of discount, please contact the Computers Editorial Office as soon as possible.

Please confirm that you support open access publishing, which allows unlimited access to your published paper and that you will pay the Article Processing Charge if your manuscript is accepted.

Dear Ms. Chris Yin,

Thank you very much for your email.

We hereby confirm and respond to your three questions as follows.

> There are some questions that need your confirmation:

> 1. APC (1260 CHF), please see the details below.

>

Thank you for your explanation regarding APC, discounts, and vouchers.
We will learn in more detail and discuss further with all the authors.

> 2. Could you please let us know if all figures/tables in the manuscript are
> your original work? Please note that if material from other publications is
> reproduced in your manuscript, please provide proof that you have obtained
> the necessary copyright permission.

>

Actually, a preliminary version of our paper has been presented at an international conference and published in the proceedings of that conference. However, the presented results are very limited and explanations are very inadequate. The publication of the preliminary paper was written by my former master's student with the correspondent author being me (as his supervisor) and we have included it in the References of our manuscript paper at number 16.

We have reproduced and corrected several figures along with enhanced explanations and caption descriptions based on the results of our consultation with Prof. Yoshida.

We also added some figures of the results of other performance evaluations and presented tables containing the measurement results (since there is no table given in the preliminary paper). We also added many basic concepts and working principles of our experimental investigation to enrich the explanation to make it more clear and convincing. The description also underscores the important contributions and results of our paper. We got all these directions and explanations from discussions and guidance with Prof. Yoshida.

> 3. After our careful checking. We noticed that you have chosen "Open Review".

> It means the review reports and your responses, including that of your
> original submission, will be published alongside your paper. Would you
> confirm this?

>

We hereby confirm again that we have selected "Open Review" for the publication of our paper.

We wish this selection will increase the number of citations for our paper.
Thank you.

Best wishes,
Armin Lawi

Dear Dr. Lawi,

Thank you again for your manuscript submission.

Your manuscript has been reviewed by experts in the field. Please find your manuscript with the referee reports at this link:

<https://susy.mdpi.com/user/manuscripts/resubmit/52acb7d05cfaed73cd76cf1b1ead42bb>

Please revise your manuscript according to the referees' comments and upload the revised file within 5 days. At the same time, as the last referee has not finalized his/her review, we are now sending the available comments to you for revision to save more time. Once we receive the last report, we will send it to you immediately. We will also keep you informed if we decide to cancel the review request.

Also, we noticed that you did not provide the graphic abstract for this paper yet. We encourage you to prepare a high quality picture as the graphic abstract which could be a single, concise, pictorial and visual summary of the main findings of the article. We will send another email of GA's requirements.

Dear Dr. Lawi,

Graphic abstract could either be the concluding figure from the article or a figure that is specially designed for the purpose, which captures the content of the article for reader of a single glance. It may also be selected as this issue's cover if it is very beautiful and professional.

GA size : the minimum required size: 560 × 1100 (height × width) pixels

For example:

<https://www.mdpi.com/1424-8247/13/5/88>

<https://www.mdpi.com/1424-8247/13/5/86>

<https://www.mdpi.com/1424-8247/13/5/81>

A Graphical Abstract (GA) is an image that appears alongside the text abstract in the Table of Contents. In addition to summarizing content, it should represent the topic of the article in an attention-grabbing way.

The detailed requirements for the GA are listed below. We hope all of our colleagues will comply with these requirements in daily work and ensure the quality of uploaded GAs.

1. The GA should be a high-quality illustration or diagram in any one of the following formats: PNG, JPEG, EPS, SVG, PSD or AI.
2. Written text in the GA should be legible. Make sure the reader can easily read the smallest font size of a character, number or symbol.
3. The minimum required size for the GA is 560 × 1100 pixels (height × width). When submitting larger images, please make sure to keep to the same ratio.
4. Avoid large blank space in the GA. There should be a proper distance between the actual content of the picture and the margins.
5. The GA should not be totally same as a Figure in the manuscript.
6. The GA should not be a simple combination of the Abstract part and a Picture (even just a Figure from the main text). We need to avoid long blocks of text in the GA.

Kind Regards,
Ms.Chris Yin
Assistant Editor

We will now edit and finalize your paper, which will then be returned to you for your approval. Within the next couple of days, an invoice concerning the article processing charge (APC) for publication in this open access journal will be sent by email from the Editorial Office in Basel, Switzerland.

If, however, extensive English edits are required to your manuscript, we will need to return the paper requesting improvements throughout.

We encourage you to set up your profile at SciProfiles.com, MDPI's researcher network platform. Articles you publish with MDPI will be linked to your SciProfiles page, where colleagues and peers will be able to see all of your publications, citations, as well as other academic contributions.

We also invite you to contribute to Encyclopedia (<https://encyclopedia.pub>), a scholarly platform providing accurate information about the latest research results. You can adapt parts of your paper to provide valuable reference information, via Encyclopedia, for others both within the field and beyond.

Dear Prof. Takaichi Yoshida,

I have received the invoice for our accepted paper in the international journal of "Computers" by MDPI. (I have forwarded the billing detail email in the rest of this email with its attachment).

The total Article Publication Charge (with 10% discount) is CHF 1,260 or JPY 146,951.28

The terms of payment are within 5 days or the due date of 27 October 2021.

I have inquired about this payment at my university, unfortunately, they need some time to review the application for payment of articles and correspondence documents, and it may take about a month or more for a financing decision.

Dear Prof. Yoshida, I wonder to ask you about our Article Processing Charge if it can be paid by Kyutech.
I, therefore, ask for your advice and guidance regarding this payment because the time limit given is very short.
Thank you very much for your assistance in advance.

Best regards,
Armin Lawi

Dear authors,

I have confirmed with ME, Blink Yu, we agreed that payments be accepted after the end of November.

At the same time, we noticed that your graphical abstract is a bit blurred, especially the tables on right part, could you remove the commas of 4-digital numbers?

Besides, may we kindly know the progress of your proofreading?

Looking forward for your reply.

Kind Regards,
Ms.Chris Yin

Thank you very much for your confirmation. I have forwarded your information to Kyutech.

We will revise and improve the image quality of our graphical abstract, and remove the commas of the 4-digit numbers on the small graphs on the right side.

Regarding the progress of our proofreading, I am waiting for improvement as well as confirmation and approval from the two other authors. We commit to completing and submitting the final version by tomorrow.

Thank you.

Dear authors,

Good day. I'm sorry to tell you that the graphical abstract doesn't meet the requirements after our check. The tables, especially the numbers is not clear, could you provide us a sharper one? Sorry to let you modify it all the time.

If you want to modify it again according to the example sent to you last time, we will be very grateful. But if you don't want to modify it, this manuscript can also not add graphical abstract, it is not compulsory.

We respect and look forward to your decision.

Kind Regards,
Ms.Chris Yin

Please read the following instructions carefully before proofreading:

- 1) Download the manuscript from the link provided at the end of this message and upload the final proofed version at the same link within 48 hours (2 working days). If you experience any difficulties, please contact the Computers Editorial Office.
- 2) Please use Microsoft Word's built-in track changes function to highlight any changes you make, or send a comprehensive list of changes in a separate document. Note that this is the *last chance* to make textual changes to the manuscript. Some style and formatting changes may have been made by the production team, please do not revert these changes.
- 3) All authors must agree to the final version. Check carefully that authors' names and affiliations are correct, and that funding sources are correctly acknowledged. Incorrect author names or affiliations are picked up by indexing databases, such as the Web of Science or PubMed, and can be difficult to correct.

After proofreading, final production will be carried out. Note that changes to the position of figures and tables may occur during the final steps. Changes can be made to a paper published online only at the discretion of the Editorial Office.

Please confirm whether you would like to use the Open Review option, where the review reports and authors' response are published alongside your paper. Reviewers can also choose to identify themselves along with the published paper. We encourage authors to take advantage of this option as proof of the rigorous peer review process used to publish your research.
