PLEASE DO NOT ALTER THE SUBJECT LINE OF THIS E-MAIL

Dear Author

The proof of your article, to be published in **ENFERMERÍA CLÍNICA**, is attached to this e-mail as a PDF file. Also attached are instructions on the annotation of PDF files (notas.pdf). A 'Query Form' is also included as the front page of the proof, detailing any questions regarding your article that have arisen during the preparation of the proof.

We will do everything possible to get your article published quickly and accurately; to do this we need your cooperation. Please respond promptly (48 hours), even if you have no corrections: the sooner we hear from you, the sooner your corrected article will appear online. Please note that any delay in returning your corrections could result in a delay in publication and that any significant changes to the article as accepted for publication will only be considered at this stage with the permission of the Editor.

Please note that proof corrections can now be annotated on-screen, which allows you to mark directly in the PDF file, and return the marked file as an e-mail attachment. See the attached instructions for further information.

Alternative methods of returning proof corrections:

If you do not wish to use the PDF annotations function, you may list the corrections (including replies to the Query Form) in an e-mail and return them to us using the 'reply' button to this e-mail. Please list your corrections quoting line number.

If, for any reason, this is not possible, mark the corrections and any other comments (including replies to the Query Form) on a printout of your proof and fax this to the number given below, or scan the pages and return them by e-mail.

We prefer to receive your corrections by e-mail or fax so that we can process your article quickly and efficiently. However, if you wish to return your corrections by post then please contact us and we will provide the full postal address.

Please use this proof for checking the typesetting, editing, completeness and correctness of the text, tables and figures.

If you submitted usable colour figures with your article they will appear, at no extra charge, in colour on the web if reproduced in colour in the attached PDF proof of your article. In the printed issue, colour reproduction depends on journal policy and whether or not you agree to bear any costs (not applicable to journals which appear only online). Any 'supplementary' material to your article (i.e., not appearing in print) will be accessible after your corrected article is placed online; such material is not part of the proofing procedure and is therefore not attached here.

Before returning your proof corrections, please ensure that you have answered any questions raised on the Query Form and that you have indicated all corrections: this is the last opportunity to make corrections before the final publication of your article.

Kind regards,

Elsevier

**ELSEVIER**

Dear Dr. Salam,

Congratulations on publishing your article *Maternal factors associated with birth length in Gowa district, South Sulawesi province, Indonesia* in *Enfermería Clínica*. Thank you for your contribution to the journal and we hope you will consider submitting an article to an Elsevier-published journal again in the future.

As a commitment to improving our service to authors, we would like to invite you to participate in our Author Feedback Program. You will receive an e-mail invitation to complete an online questionnaire from Elsevier, asking you to evaluate our performance. Your opinion is very important to us and will enable us to monitor and improve our services for authors.

Please note: you will not be sent a questionnaire if you have received an author feedback questionnaire from us within the last 6 months or have previously informed us that you do not wish to receive a survey.

Thank you for your cooperation.

Estimado/a Dr. Salam:

Me dirijo a usted con motivo de la reciente publicación de un artículo suyo en **Enfermería Clínica**.

Estamos llevando a cabo un breve estudio y queremos saber cuál es su nivel de satisfacción con la forma en que se gestionó la publicación de su artículo (desde el momento de su envío a su publicación definitiva). Sus respuestas servirán para ayudarnos a mejorar los servicios de publicación que le ofrecemos en la actualidad.

Completar esta encuesta de forma on line le llevará muy poco tiempo y contar con su opinión es muy importante para poder garantizar la precisión del estudio.

Para comenzar a responder al cuestionario, por favor, haga clic sobre el enlace que se muestra a continuación (una sola vez será suficiente):
