Dear Dr. Suman

Thank you very much for your email. I am very sorry that I can't finish my revised paper on time. Would you please give me more time until this weekend. Next week I will submit my revised paper.

Thank you very much for your kind understanding.

Best regards

Tri

Dear Dr. Tri Harianto,

I hope you are fine and quite busy these days on processing to come to Saga next month.

Last time, I sent you email from LTI Journal email address with attachments of reviewers' results with deadline which is yet to receive.

I am using this email id. to request you personally to assist in this matter. It is confidential that we have only one Geotechnical paper for this coming June issue. If you help me, at least we will have two papers for coming issues. This time there are no any geotechnical papers. Therefore, I humbly request you to send me your revised manuscript (G274).

Your kind cooperation is highly appreciated.

Thanking you and looking forward to seeing you here in Saga soon.

Sincerely,
Suman

Dear Dr. Tri,

Thank you very much for your quick response.

I will consider about ASTM standard and will remove a letter n from nAI Wahab.

Thank you.

Dear Dr. Tri,

I hope you are fine.

I am writing this email to acknowledge you that your paper has already been in Press and will send you for page proof immediate after receiving it. I would be grateful if you send me a signed copyright form before you receive page proof. The page proof will be sent to you next week.

Thanking you and looking forward to receiving your kind cooperation.

Dear Yahiro san

How are you, I hope you are fine in Saga.

Recently I received email about my paper will be published in June 2014 edition of LTI journal. I have one request for you, would you kindly please keep 1 copy (printed version) for me, and I will collect the journal when I visit Saga for ISLT2014 this September.

Thank you very much for your kindness.

Best regards,
Tri
