PLEASE DO NOT ALTER THE SUBJECT LINE OF THIS E-MAIL

Dear Author=20

The proof of your article, to be published in ENFERMER=C3=8DA
CL=C3=8DNICA =
, is attached to this e-mail as a PDF file. Also attached are
instructions =
on the annotation of PDF files (notas.pdf). A =E2=80=98Query
Form=E2=80=99 =
is also included as the front page of the proof, detailing any
questions re=
garding your article that have arisen during the preparation of the
proof.=
=20

We will do everything possible to get your article published quickly
and ac=
curately; to do this we need your cooperation. Please respond
promptly (48 =
hours), even if you have no corrections: the sooner we hear from
you, the s=
ooner your corrected article will appear online. Please note that
any delay=
in returning your corrections could result in a delay in
publication and t=
hat any significant changes to the article as accepted for
publication will=
only be considered at this stage with the permission of the Editor.

Please note that proof corrections can now be annotated on-screen,
which al=
lows you to mark directly in the PDF file, and return the marked
file as an=
e-mail attachment. See the attached instructions for further
information.=
=20

Alternative methods of returning proof corrections:=20
If you do not wish to use the PDF annotations function, you may list
the co=
rrections (including replies to the Query Form) in an e-mail and
return the=
m to us using the =E2=80=98reply=E2=80=99 button to this e-mail.
Please lis=
t your corrections quoting line number.=20

If, for any reason, this is not possible, mark the corrections and
any othe=
r comments (including replies to the Query Form) on a printout of
your proo=
f and fax this to the number given below, or scan the pages and
return them=

by e-mail.=20

We prefer to receive your corrections by e-mail or fax so that we can process your article quickly and efficiently. However, if you wish to return your corrections by post then please contact us and we will provide the full postal address.=20

Please use this proof for checking the typesetting, editing, completeness and correctness of the text, tables and figures.=20

If you submitted usable colour figures with your article they will appear, at no extra charge, in colour on the web if reproduced in colour in the attached PDF proof of your article. In the printed issue, colour reproduction depends on journal policy and whether or not you agree to bear any costs (not applicable to journals which appear only online). Any supplementary material to your article (i.e., not appearing in print) will be accessible after your corrected article is placed online; such material is not part of the proofing procedure and is therefore not attached here.

Before returning your proof corrections, please ensure that you have answered any questions raised on the Query Form and that you have indicated all corrections: this is the last opportunity to make corrections before the final publication of your article.=20

Kind regards,

Elsevier

Judul: Proofs of [ENFCLI_1181]

Untitled Document=20

P-authorproof-ESES_Eng_v14(a)

PLEASE DO NOT ALTER THE SUBJECT LINE OF THIS E-MAIL

Dear Author=20

The proof of your article, to be published in ENFERMER=C3=8DA
CL=C3=8DNICA =
, is attached to this e-mail as a PDF file. Also attached are
instructions =
on the annotation of PDF files (notas.pdf). A =E2=80=98Query
Form=E2=80=99 =
is also included as the front page of the proof, detailing any
questions re=
garding your article that have arisen during the preparation of the
proof.=
=20

We will do everything possible to get your article published quickly
and ac=
curately; to do this we need your cooperation. Please respond
promptly (48 =
hours), even if you have no corrections: the sooner we hear from
you, the s=
ooner your corrected article will appear online. Please note that
any delay=
in returning your corrections could result in a delay in
publication and t=
hat any significant changes to the article as accepted for
publication will=
only be considered at this stage with the permission of the Editor.

Please note that proof corrections can now be annotated on-screen,
which al=
lows you to mark directly in the PDF file, and return the marked
file as an=
e-mail attachment. See the attached instructions for further
information.=
=20

Alternative methods of returning proof corrections:=20
If you do not wish to use the PDF annotations function, you may list
the co=
rrections (including replies to the Query Form) in an e-mail and
return the=
m to us using the =E2=80=98reply=E2=80=99 button to this e-mail.
Please lis=
t your corrections quoting line number.=20

If, for any reason, this is not possible, mark the corrections and
any othe=
r comments (including replies to the Query Form) on a printout of
your proo=
f and fax this to the number given below, or scan the pages and
return them=

by e-mail.=20

We prefer to receive your corrections by e-mail or fax so that we can process your article quickly and efficiently. However, if you wish to return your corrections by post then please contact us and we will provide the full postal address.=20

Please use this proof for checking the typesetting, editing, completeness and correctness of the text, tables and figures.=20

If you submitted usable colour figures with your article they will appear, at no extra charge, in colour on the web if reproduced in colour in the attached PDF proof of your article. In the printed issue, colour reproduction depends on journal policy and whether or not you agree to bear any costs (not applicable to journals which appear only online). Any supplementary material to your article (i.e., not appearing in print) will be accessible after your corrected article is placed online; such material is not part of the proofing procedure and is therefore not attached here.

Before returning your proof corrections, please ensure that you have answered any questions raised on the Query Form and that you have indicated all corrections: this is the last opportunity to make corrections before the final publication of your article.=20

Kind regards,

Elsevier
