Manuscript Title:	Community Perception of Waste Pollution from Bolu Animal Market, Toraja Utara Regency
Evaluation Report	
General Comments	<p>Writing style needs improvement – needs better “flow” between sentences and grammar.</p> <p>I’m not sure where the study took place in a global context – where is North Toraja Regency?</p> <p>For the methods section, how were people (n=22) questioned? What questions were they asked?</p> <p>Table 1: What does “Number of Soul” mean? Table 2: What does “Jumlah Jiwa” mean?</p> <p>The Conclusion section needs to be stronger. The community is “quite disturbed,” yet some are not because they’re used to it. Then, they’re “not disturbed” because they use PDAM water... but waste disturbs some people....?</p> <p>Is there a way to write up the conclusions more clearly and elaborate on the implications and recommendations for each finding? How should the market “pay more attention to the cleanliness” and what waste management practices should be assessed?</p>
