Dear Dr Yulia Yusrini Djabir:

Thank you for agreeing to review the above manuscript, entitled "THE EFFECT OF AMIODARONE ON SURVIVAL RATE AND PATHOLOGICAL, HEMATOLOGICAL AND BIOCHEMICAL PARAMETERS IN ACUTE SELENIUM INTOXICATION" for Drug and Chemical Toxicology.

To access the manuscript and complete your review, please click on the following link:

https://mc.manuscriptcentral.com/ldct?URL_MASK=bf358810ccb64ce1a3282412026dc93e

On the review page, there is a space for "Comments to Editor" and a space for "Comments to the Author." Please be sure to put your comments to the author in the appropriate space.

If you wish to view the manuscript and the review form simultaneously, click on the HTML or PDF icons – the manuscript will open in a new window. Leave the new window open, switch back to the main window, and open the score sheet by clicking on the Score Sheet tab. Follow the instructions for reviewers provided in the Manuscript Central site.

I strongly encourage you to elaborate on your review in the space provided. Your specific comments will offer valuable feedback to improve future work. It is essential that you click the "Save" button if you wish to exit the review before you submit it to the Editor. Otherwise, none of the information that you have entered will be saved in the system. When you have completed your review and are ready to submit it to the Editor, click on "Submit."

All communications regarding this manuscript are privileged. Any conflict of interest, suspicion of duplicate publication, fabrication of data or plagiarism must immediately be reported to me.

Please note, to log into your account on the Manuscript Central site at a later date, your case-sensitive USER ID is yuliayusrini@yahoo.com, https://mc.manuscriptcentral.com/ldct?URL_MASK=3ed94624844e4cbfbcf9a219ae1b0767.

To assist you with the review of this paper, please accept 30 days complimentary access to our peer reviewed content via Taylor & Francis Online, a resource we hope you will find useful when considering your response to this submission. Simply follow this link to activate access to this content: <http://www.tandfonline.com/r/revieweraccess>

You will first be asked to sign in or register. If you are already registered on Taylor & Francis Online, please sign in. To register, click the 'Register' button at the top of the screen and follow the instructions.

On behalf of Taylor & Francis and the Editors, we thank you for donating your time and expertise to the peer review process, and we hope that you will be happy to review further manuscripts for us in the future.

Thank you for evaluating this manuscript.

Sincerely,
Professor Milos Stojiljkovic
Drug and Chemical Toxicology Editorial Office
milos.stojiljkovic@med.unibl.org

Agreeing to review an article for this Journal implies that you as the reviewer will adhere to the accepted ethical standards of scientific, medical and academic publishing. Material submitted for peer review is a privileged communication that should be treated in confidence. Material under review should not be shared or discussed with anyone outside the designated review process, unless approved by the editor. All communications relating to the paper in review should also be treated in confidence. Any breach of confidentiality in the review process is taken seriously by the journal and will be investigated according to the advice of COPE (<http://publicationethics.org>). Any

conflict of interest, suspicion of duplicate publication, fabrication of data, plagiarism or other ethical concerns must immediately be reported to the Editor.

By agreeing to review this manuscript, you are stating that you are the person completing this review. If you wish to collaborate with a colleague and/or trainee to perform this review, or wish to assign this review to a trainee for completion under your guidance, please contact the Editor for permission before sharing the manuscript. If the Editor agrees please provide the name, affiliation and e-mail address for the trainee/ colleague so he or she may be assigned as a reviewer directly.

If you have any conflict of interest (for example, collaborate with the author(s) or are currently working on a similar study), please decline to review this manuscript and, if possible, suggest appropriate alternate reviewers.

Dear Dr Yulia Yusrini Djibir:

Thank you for reviewing the above manuscript, entitled "THE EFFECT OF AMIODARONE ON SURVIVAL RATE AND PATHOLOGICAL, HEMATOLOGICAL AND BIOCHEMICAL PARAMETERS IN ACUTE SELENIUM INTOXICATION" for Drug and Chemical Toxicology.

We greatly appreciate the voluntary contribution that each reviewer gives to the Journal. We hope that we may continue to seek your assistance with the refereeing process for Drug and Chemical Toxicology, and hope also to receive your own research papers that are appropriate to our aims and scope.

Sincerely,
Professor Milos Stojiljkovic
Section Editor, Drug and Chemical Toxicology
