TBEQ-2017-0457.R2 - Determining an Appropriate Unstructured Kinetic Model for Batch Ethanol Fermentation Data Using a Direct Search Method

Dear Miss Kasbawati Kasbawati:

Thank you for your email regarding your submission to B&BE. We are glad to inform you that your above-referenced manuscript has been positively evaluated by the peer-reviewers. As part of the final peer-review process, each positively evaluated manuscript undergoes text, style and content editing. The editing process includes five different steps and each of them takes different time depending on each particular manuscript. Your manuscript has been assigned to one of our editors, to be edited for one of the forthcoming issues of Biotechnology & Biotechnological Equipment, in due course.

Thank you for your patience.

In the meanwhile, if you need a certificate of your manuscript's status, please feel free to request one from us.

Sincerely,  
Dr Evgeniya Dimova  
Biotechnology & Biotechnological Equipment

Dear Sir/Madam,

Thank you very much for your kindly response. I really appreciate it. Regarding the certificate, I will contact you once I need it.

Best Regards,

Kasbawati
