Embargos are not automatically set for papers published in Heliyon. Papers appear online a few days after acceptance. To request a media embargo and/or publication on a specific date to assist an institutional press release, please reach out to the Heliyon team (info@heliyon.com) as soon as possible and we will do our best to accommodate your request.

Editor and Reviewer comments:

Editorial Board:

Please provide a clean copy of your revised manuscript.

Please note that all authors should have made substantial contributions to all of the following: (1) the conception and design of the study, the acquisition of data, or the analysis and interpretation of data (ie. at least one of sections 1-4 below); (2) drafting the article or critically revising its important intellectual content; (3) final approval of the version submitted. Currently, it seems author “Ahmad Adha” only contributed to writing and revising the paper. Please correct your Author Contribution Statement to follow the guidelines above, using only Heliyon's standard wording as provided:

- 1 - Conceived and designed the experiments;
- 2 - Performed the experiments;
- 3 - Analyzed and interpreted the data;
- 4 - Contributed reagents, materials, analysis tools or data;
- 5 - Wrote the paper.

Please ensure that any co-author with the contribution “Wrote the paper” has also contributed to at least one other numbered section, and also the Analyzed and interpreted the data section is missing in the author contribution statement, as drafting of the article is not sufficient contribution to justify authorship in Heliyon.

The level of English throughout your manuscript does not meet the journal's required standard and it will need to be improved before submitting a revised manuscript. For

help with English language usage and quality, we strongly recommend that you either consult with a colleague whose native language is English or use a professional language editing service. Dear Gigi Cuarteros

I sent my revision yesterday (Thursday, 5 August), and the manuscript number is HELIYON-D-20-08247R1. But I think I misunderstood the instruction. I sent a cover letter as a response to the reviewer comments and a manuscript revision with tracking, but **I did not send a clean copy of my manuscript** because I did not find a slot for it. After I have done all the process, I still think about it. Was I follow the procedure correctly? If I misunderstood the instruction, I will very please if you give me a chance to repeat the submitting revision process.

Data in Brief (optional):

We invite you to convert your supplementary data (or a part of it) into an additional journal publication in Data in Brief, a multi-disciplinary open access journal. Data in Brief articles are a fantastic way to describe supplementary data and associated metadata, or full raw datasets deposited in an external repository, which are otherwise unnoticed. A Data in Brief article (which will be reviewed, formatted, indexed, and given a DOI) will make your data easier to find, reproduce, and cite.

You can submit to Data in Brief when you upload your revised manuscript. To do so, complete the template and follow the co-submission instructions found here: www.elsevier.com/dib-template. If your manuscript is accepted, your Data in Brief submission will automatically be transferred to Data in Brief for editorial review and publication.

Please note: an open access Article Publication Charge (APC) is payable by the author or research funder to cover the costs associated with publication in Data in Brief and ensure your data article is immediately and permanently free to access by all. For the current APC see: www.elsevier.com/journals/data-in-brief/2352-3409/open-access-journal

Please contact the Data in Brief editorial office at dib-me@elsevier.com or visit the Data in Brief homepage (www.journals.elsevier.com/data-in-brief/) if you have questions or need further information.
