Makassar, 3 February 2020

Dear Dr. Ioan Valentin Petrescu-Mag

I am writing to submit our manuscript entitled, "Bioavailability Exchangeable Phase of Heavy Metals in Sediments and Contamination in Shellfish at Estuaries West Coast of South Sulawesi" for consideration for publication in **Aquaculture, Aquarium, Conservation & Legislation - International Journal of the Bioflux Society**. Because our findings can be very interesting information related to monitoring environmental estuaries for vision scientists, researchers, and lecturers who read your journal. This manuscript describes original work and is not under consideration by any other journal. All authors approved the manuscript and this submission. Thank you for receiving our manuscript and considering it for review. We appreciate your time and look forward to your response.

Sincerely

Dr. Muhammad Farid Samawi

Dear Dr. M. Farid Samawi,

This is a message of confirmation regarding the reception of your manuscript **Bioavailability Exchangeable Phases of Heavy Metals in Sediments and Contamination in Shellfish at Estuaries West Coast of South Sulawesi**, submitted to our journal AAAL Bioflux. I will soon contact you with further information regarding your manuscript

For any questions, please contact me.

Please try to keep one message thread (respond/ask with "Reply") for an easier message management.

Thank you for considering our journal.

Best regards,

Tudor Papuc

Congratulations! The manuscript has been published in volume 13 issue 4!  
You can find it here, on our site: <http://www.bioflux.com.ro/docs/2020.2365-2374.pdf>, or in the attachment.

Only some key words were changed, and the mentioning "with a multiparameter" was added after mentioning measurement of the water parameters. The date of 30 August is the publication date, because there are still some available places in issue 4, so the paper could be published there.

Thank you for publishing with us!

Best Regards,  
Tudor Papuc
