Dear Agnieszka Bieda/GaEE,

Dear Agnieszka Bieda/GaEE,

Here are the reviewer's comments:

1. The article does not specify which country South Sulawesi is located in! This would be worth mentioning in the article's title or in the key words or in the main part of the article (for example state country in parentheses: South Sulawesi (province of Indonesia)). After reading the whole article it is still not clear which country is discussed (the explanation is in the discussion).
2. It would be worth adding a scale ruler and arrow that points to north to figure 1 and figure 2. It is international journals' requirement for this kind of figures (regions) for presentability.
3. It is not clear what numbers "1" and "2" mean in figure's 2 legend. It would be good add some explanations, like "2 days" and "1 day" or write explanation in figure 2 label for example: "extreme downpour frequency etc.".

Answer:

1. We have fixed question 1, using word "Indonesia", in Abstract.
2. We have add scale ruler and arrow in figure 1 and figure 2.
3. The legend of figure 2 have added explanation of the legend in Figure 2.

We also revised some text and figure 2 in order to improve the quality of this paper.

Thank you very much.

Kind regards,
Amran Rahim,
University of Hasanuddin, Indonesia.

Dear Amran Rahim,

Thank you for submitting the following manuscript to GaEE: "Spatio-Temporal Model of the Extreme Rainfall Data in Province of South Sulawesi for Flood Early Warning System".

It has been reviewed by experts in the field and we request that you make minor revisions before it is processed further. Please find the reviews attached.

Please correct the article in accordance with the comments of the Reviewers and send a new text to GaEE@agh.edu.pl .
With the article send me a response to the reviews (point by point) and a scan of the signed statement:
http://www.gaee.agh.edu.pl/pliki/declaration_GaEE.pdf

Please confirm receipt of the message and write how much time you need to correct the article.

Kind regards,
Agnieszka Bieda
