## Scope

International Journal of Professional Business Review aims to publish original research in order to contribute to the promotion and dissemination of key issues in professional business and related areas. The JPB Review is published by Open Access Publications LLC. and also it is supported by Management Institute (Warsaw University of Life Sciences, Poland). The JPB Review's content aspires to be relevant and interesting to a wide readership, which adds

to the understanding and discussion of professional business and academia worldwide. To be published in the JPB Review, authors must adhere to high standards of research and contribute to theory and/or practice in related areas, regardless of whether the level of analysis is the organization, region or country. The JPB Review challenges potential authors to produce high quality distinguished research, well grounded in theory and with high methodological rigor. The demonstration of an effective conceptual contribution will be considered in the journal's editorial process.

## SJR

The SJR is a size-independent prestige indicator that ranks journals by their 'average prestige per article'. It is based on the idea that 'all citations are not created equal'. SJR is a measure of scientific influence of journals that accounts for both the number of citations received by a journal and the importance or prestige of the journals where such citations come from. It measures the scientific influence of the average article in a journal, it expresses how central to the global scientific discussion an average article of the journal is.
