Dear Dr. Sunusi,

Thank you for submitting the following manuscript for publication in AIMS Environmental Science:

Manuscript ID: Environ-236

Type of manuscript: Research article

Title: Alternative Method for Determining the Optimal Number of Rain Gauges in Specific Area: A Case Study in Urban Area of South Sulawesi, Indonesia.

Authors: Nurtiti Sunusi *, Giarno Giarno

Received: 20 December 2021

E-mails: nurtitisunusi@unhas.ac.id, giarno97182@gmail.com

Geographic information systems in environmentalprotection

https://aimspress.jams.pub/user/manuscripts/review_info/64c640c20b1788e362b3f484d67caace

Before we send your manuscript to an Academic Editor to evaluate its suitability for peer-review, please confirm that you agree with conditions 1 and 2 below:

1. The AIMS Environmental Science is an open access journal with publishing fees of 300 USD for an accepted paper. An additional fee may apply if extensive formatting or English editing must be undertaken by the Editorial Office. For more information please refer to:

<http://www.aimspress.com/aimspress/news/solo-detail/instructionsforauthors>.

Please confirm that you support open access publishing, which allows unlimited access to your published paper, and that you will pay the publishing fee if the paper is accepted.

2. Manuscript and copyright issues

a. If material from other publications is reproduced in your manuscript, please provide proof that you have obtained the necessary copyright permission. Please refer to our Rights & Permissions website.

b. Your manuscript is accepted for processing on the understanding that it has not been published elsewhere (or submitted to another journal). Exceptions to this rule are papers containing material disclosed at conferences, however please inform us if this is the case. For papers with multiple authors, please also confirm that all authors are familiar with and agree with the contents of the manuscript. We reserve the right to contact all authors to confirm this in case of doubt. Please provide e-mail addresses for all authors and at least one institutional email address for one of the co-authors, and specify the name, address and E-mail for invoicing purposes.

This article, if accepted, will be an open access article distributed under the terms and conditions of the Creative Commons Attribution License (<http://creativecommons.org/licenses/by/4.0/>).

We will send your manuscript to an Academic Editor to evaluate its suitability for peer-review as soon as you confirm the above conditions. If accepted after peer-review, it will be published immediately after copy-editing and professional production.

Please do not hesitate to contact us if you have any questions. We look forward to receiving your confirmation soon.

Kind regards,

Sincere regards,

Jiaojiao Zhong
Editor

Dear Dr. Sunusi,

Thank you for submitting the following manuscript to AIMS Environmental Science.

Manuscript ID: Environ-236

Type of manuscript: Research article

Title: Alternative Method for Determining the Optimal Number of Rain Gauges in Specific Area: A Case Study in Urban Area of South Sulawesi, Indonesia.

Authors: Nurtiti Sunusi *, Giarno Giarno

Received: 20 December 2021

E-mails: nurtitisunusi@unhas.ac.id, giarno97182@gmail.com

Geographic information systems in environmentalprotection

It has been reviewed by experts in the field and we request that you make major revisions before it is processed further. Please find your manuscript and the review reports at the following link:

<https://aimspress.jams.pub/user/manuscripts/resubmit/64c640c20b1788e362b3f484d67caace>

Your co-authors can also view this link if they have an account in our submission system using the e-mail address in this message.

Please revise the manuscript according to the reviewers' comments and upload the revised file within 14 days. Use the version of your manuscript found at the above link for your revisions, as the editorial office may have made formatting changes to your original submission. Any revisions should be clearly highlighted, for example using the "Track Changes" function in Microsoft Word, so that changes are easily visible to the editors and reviewers. Please provide a cover letter to explain point-by-point the details of the revisions in the manuscript and your responses to the reviewers' comments. Please include in your rebuttal if you found it impossible to address certain comments. The revised version will be inspected by the editors and reviewers.

Do not hesitate to contact us if you have any questions regarding the revision of your manuscript. We look forward to hearing from you soon.

Kind regards,

Sincere regards,

Jiaojiao Zhong

Dear Prof Jiaojiao Zhong
Editor of
AIMS Environmental Science

I just checked the manuscript system, it says "Pending Major Revision". I'm confused why there is no notification email, it turns out that the email from aimspress went in spam, so I just wanted to make a revision. Thank you for your understanding and cooperation.

Best regards
Nurtiti Sunusi

Cc: giarno97182@gmail.com

Dear Dr. Sunusi,

We invite you to proofread your manuscript prior to publication:

Manuscript ID: Environ-236

Type of manuscript: Research article

Title: Alternative Method for Determining the Optimal Number of Rain Gauges in Specific Area: A Case Study in Urban Area of South Sulawesi, Indonesia.

Authors: Nurtiti Sunusi *, Giarno Giarno

Received: 20 December 2021

E-mails: nurtitisunusi@unhas.ac.id, giarno97182@gmail.com

Geographic information systems in environmentalprotection

The English editor has polished your article, please confirm these modification and revise your paper according to the comments.

Please note that Table 6, reference 15, 17, 19, 23, 24 are not cited.

Please read the following instructions carefully before proofreading:

- 1) Download the manuscript from the link provided at the end of this message and upload the final proofed version at the same link within 48 hours (NULL working days). If you experience any difficulties, please contact the AIMS Environmental Science Editorial Office.
- 2) Please ensure that any blinding of the paper, including self references, for peer review purposes are now corrected and entered as should appear for publication.
- 3) Please use Microsoft Word's built-in track changes function or comments to highlight any changes you make, or send a comprehensive list of changes in a separate document. Note that this is the *last chance* to make textual changes to the manuscript. Some style and formatting changes may have been made by the production team, please do not revert these changes.
- 4) All authors must agree to the final version. Check carefully that authors' names and affiliations are correct, and that funding sources are correctly acknowledged. Incorrect author names or affiliations are picked up by indexing databases and can be difficult to correct.

After proofreading, final production will be carried out. Note that changes to the position of figures and tables may occur during the final steps. Once a paper has been published online we will not accept any corrections or changes to the published version - please refer to UCL Press editorial policies for further information. Any changes agreed to the article made later will be published separately via a Correction or Addendum.

Please download the final version of your paper for proofreading here:

<https://aimspress.jams.pub/user/manuscripts/proof/file/64c640c20b1788e362b3f484d67caace>

and upload here:

<https://aimspress.jams.pub/user/manuscripts/resubmit/64c640c20b1788e362b3f484d67caace>

Supplementary and other additional files can be found at the second link. We look forward to hearing from you soon.

Kind regards,

Sincere regards,
