Dear Dr. Sunusi,

Thank you for submitting the following manuscript for publication in AIMS Environmental Science:

Manuscript ID: Environ-362

Type of manuscript: Research article

Title: Bias of Automatic Weather Parameter Measurement in Monsunal Area, A Case Study in Makassar Coast

Authors: Nurtiti Sunusi *, Giarno -

Received: 26 June 2022

E-mails: nurtitisunusi@unhas.ac.id, giarno97182@gmail.com

Green innovation, green marketing, and sustainability

<http://www.aimspress.com/aimspress/article/5980/special-articles>https://aimspress.jams.pub/user/manuscripts/review_info/5505f94708dfeed475d4ddc140d8b2f7

Before we send your manuscript to an Academic Editor to evaluate its suitability for peer-review, please confirm that you agree with conditions 1 and 2 below:

1. The AIMS Environmental Science is an open access journal with publishing fees of 300 USD for an accepted paper. An additional fee may apply if extensive formatting or English editing must be undertaken by the Editorial Office. For more information please refer to:

<http://www.aimspress.com/aimspress/news/solo-detail/instructionsforauthors>.

Please confirm that you support open access publishing, which allows unlimited access to your published paper, and that you will pay the publishing fee if the paper is accepted.

2. Manuscript and copyright issues

a. If material from other publications is reproduced in your manuscript, please provide proof that you have obtained the necessary copyright permission. Please refer to our Rights & Permissions website.

b. Your manuscript is accepted for processing on the understanding that it has not been published elsewhere (or submitted to another journal). Exceptions to this rule are papers containing material disclosed at conferences, however please inform us if this is the case. For papers with multiple authors, please also confirm that all authors are familiar with and agree with the contents of the manuscript. We reserve the right to contact all authors to confirm this in case of doubt. Please provide e-mail addresses for all authors and at least one institutional email address for one of the co-authors, and specify the name, address and E-mail for invoicing purposes.

This article, if accepted, will be an open access article distributed under the terms and conditions of the Creative Commons Attribution License (<http://creativecommons.org/licenses/by/4.0/>).

We will send your manuscript to an Academic Editor to evaluate its suitability for peer-review as soon as you confirm the above conditions. If accepted after peer-review, it will be published immediately after copy-editing and professional production.

Please do not hesitate to contact us if you have any questions. We look forward to receiving your confirmation soon.

Kind regards,

Mengrui Wang

Cc: Giarno - <giarno97182@gmail.com>

Dear Dr. Sunusi,

Thank you for submitting the following manuscript to AIMS Environmental Science.

Manuscript ID: Environ-362

Type of manuscript: Research article

Title: Bias of Automatic Weather Parameter Measurement in Monsunal Area, A Case Study in Makassar Coast

Authors: Nurtiti Sunusi *, Giarno -

Received: 26 June 2022

E-mails: nurtitisunusi@unhas.ac.id, giarno97182@gmail.com

Green innovation, green marketing, and sustainability

<http://www.aimspress.com/aimspress/article/5980/special-articles>

It has been reviewed by experts in the field and we request that you make major revisions before it is processed further. Please find your manuscript and the review reports at the following link:

<https://aimspress.jams.pub/user/manuscripts/resubmit/5505f94708dfeed475d4ddc140d8b2f7>

Your co-authors can also view this link if they have an account in our submission system using the e-mail address in this message.

Please revise the manuscript according to the reviewers' comments and upload the revised file within 14 days. Use the version of your manuscript found at the above link for your revisions, as the editorial office may have made formatting changes to your original submission. Any revisions should be clearly highlighted, for example using the "Track Changes" function in Microsoft Word, so that changes are easily visible to the editors and reviewers. Please provide a cover letter to explain point-by-point the details of the revisions in the manuscript and your responses to the reviewers' comments. Please include in your rebuttal if you found it impossible to address certain comments. The revised version will be inspected by the editors and reviewers.

Do not hesitate to contact us if you have any questions regarding the revision of your manuscript. We look forward to hearing from you soon.

Kind regards,

Mengrui Wang

Dear Dr. Sunusi,

We are pleased to inform you that the following paper has been officially accepted for publication:

Manuscript ID: Environ-362
Type of manuscript: Research article
Title: Bias of Automatic Weather Parameter Measurement in Monsunal Area, A Case Study in Makassar Coast
Authors: Nurtiti Sunusi *, Giarno -
Received: 26 June 2022
E-mails: nurtitisunusi@unhas.ac.id, giarno97182@gmail.com
Green innovation, green marketing, and sustainability
<http://www.aimspress.com/aimspress/article/5980/special-articles>

https://aimspress.jams.pub/user/manuscripts/review_info/5505f94708dfeed475d4ddc140d8b2f7

To expedite the publication of your article, your help is required to prepare the final version in the journal's format by following the new template I sent to you. You can also find the guidelines at the following link: <http://www.aimspress.com/aimspress/news/solo-detail/instructionsforauthors>. Please provide us the final version by using this email account (Word files or all LaTeX related files, compressed as a single zipped file).

After receiving your final version in the journal's format, we will prepare for publication and send you the proof for approval.

Further, to maximize the impact and readership of your paper, AIMS will do everything possible to make it reach all interested readers in the shortest possible time. To this end, we would need your help in providing an extended list of names with email addresses of those people who may be interested in your paper, especially the authors of the references you cited. Please prepare the list as a Excel file formatted as "name; email;" (one per line) via email. With your suggested list, we will invite them to browse this published issue online.

Kind regards,

Mengrui Wang
Editorial Assistant

Dear Dr. Sunusi,

Thank you very much for providing the final version and bank receipt of your paper. We will send you the receipt as soon as we receive the remittance.

However, the format of the final version does not meet our requirements.

1. Please remove the borders of all pictures.
2. Revise the references according to the template file. I also provide an example in your manuscript.

1. → N. Sunusi, Giarno (2022) Comparison of Some Schemes for Determining the Optimal Number of Rain Gauges in a Specific Area: A Case Study in an Urban Area of South Sulawesi, Indonesia. *AIMS Environmental Science*, 9(3): 244-260.↵

Final Proofreading Before Publication

1 message

environ@aimspress.org <environ@aimspress.org>

Thu, Nov 3, 2022 at 10:59 AM

Reply-To: mengrui.wang@aimsciences.org

To: Nurtiti Sunusi <nurtitisunusi@unhas.ac.id>

Cc: giarno97182@gmail.com

Dear Dr. Sunusi,

We invite you to proofread your manuscript prior to publication:

Manuscript ID: Environ-362

Type of manuscript: Research article

Title: Bias of Automatic Weather Parameter Measurement in Monsunal Area, A Case Study in Makassar Coast

Authors: Nurtiti Sunusi *, Giarno -

Received: 26 June 2022

E-mails: nurtitisunusi@unhas.ac.id, giarno97182@gmail.com

Green innovation, green marketing, and sustainability

<http://www.aimspress.com/aimspress/article/5980/special-articles>

Notes: 1) Please find the edited version and upload the final version of the manuscript via this email. 2) Please revise your paper at the version that I sent to you. 3) When you revise your paper, please highlight it.

Comments: Please check the highlighted fields in the PDF file.

Please read the following instructions carefully before proofreading:

1) Download the manuscript from the link provided at the end of this message and upload the final proofed version at the same link within 48 hours (NULL working days). If you experience any difficulties, please contact the AIMS Environmental Science Editorial Office.

2) Please ensure that any blinding of the paper, including self references, for peer review purposes are now corrected and entered as should appear for publication.

3) Please use Microsoft Word's built-in track changes function or comments to highlight any changes you make, or send a comprehensive list of changes in a separate document. Note that this is the *last chance* to make textual changes to the manuscript. Some style and formatting changes may have been made by the production team, please do not revert these changes.

4) All authors must agree to the final version. Check carefully that authors' names and affiliations are correct, and that funding sources are correctly acknowledged. Incorrect author names or affiliations are picked up by indexing databases and can be difficult to correct.

After proofreading, final production will be carried out. Note that changes to the position of figures and tables may occur during the final steps. Once a paper has been published online we will not accept any corrections or changes to the published version - please refer to UCL Press editorial policies for further information. Any changes agreed to the article made later will be published separately via a Correction or Addendum.

Please download the final version of your paper for proofreading here:

<https://aimspress.jams.pub/user/manuscripts/proof/file/5505f94708dfeed475d4ddc140d8b2f7>

and upload here:

<https://aimspress.jams.pub/user/manuscripts/resubmit/5505f94708dfeed475d4ddc140d8b2f7>

Supplementary and other additional files can be found at the second link. We look forward to hearing from you soon.

Kind regards,

Mengrui Wang
Editorial Assistant

Dear Dr. Sunusi,

Thank you for your proofreading of the following manuscript:

Manuscript ID: Environ-362

Title: Bias of Automatic Weather Parameter Measurement in Monsunal Area, A Case Study in Makassar Coast

However, there's still one detail you need to confirm.
