Do not trust this journal.

They are scammers. Not professional as their name!

How can an edition can include so many articles?

All they want is your money! I really recommend to put this journal out of SCOPUS and SCIMAGO.

Los autores que están enviando sus manuscritos deben de tener cautela. Esta revista ha aumentado exponencialmente la cantidad de artículos publicados de un año para el otro. Esta característica está asociada a las revistas depredadoras, más aún debido al cobro que realizan y a la débil revisión por pares.
