RADY-2023-0001 - The effect of environmental citizenship and spiritual norms as mediators on students' environmental behaviour

Dear Dr Ridayani Ridayani:

Thank you for submitting your manuscript to International Journal of Adolescence and Youth RADY-2023-0001 - The effect of environmental citizenship and spiritual norms as mediators on students' environmental behaviour.

We need to inform you that unfortunately there is currently no Editor in place to undertake the editorial assessment and peer review for your manuscript.

The team at Taylor & Francis are actively working to recruit a new Editor, however this process of recruitment may take a few more months to complete.

With this in mind, if you would like to withdraw your manuscript from consideration in light of this information, please feel free to do so by emailing the journal administrator on RADY-peerreview@journals.tandf.co.uk. You would then be free to submit the manuscript elsewhere.

If you wish to continue with your submission, we will place your manuscript on hold and will complete the initial administrative checks – that happen before editorial assessment and peer review – straight away, before a new editorial team is in place.

Therefore please note that we may need to contact you at this stage for initial queries relating to your submission, in order to proceed through the administrative check stage.

This does not mean the paper has been progressed to review, as this will only happen once a new Editor is in place.

We are very sorry for any inconvenience caused by this.

For any other queries, you can reach out to the Portfolio Manager for this journal, Abi Amey, on the email provided below.

Best wishes,
Abi Amey, Portfolio Manager, Routledge

Dear Dr Ridayani:

Your manuscript entitled "The effect of environmental citizenship and spiritual norms as mediators on students' environmental behaviour", which you submitted to International Journal of Adolescence and Youth, has been reviewed. The reviewer comments are included at the bottom of this letter.

The reviews are favourable and suggest that, subject to minor revisions, your paper will be suitable for publication. Please consider these suggestions, and I look forward to receiving your revision.

When you revise your manuscript please highlight the changes you make in the manuscript by using the track changes mode in MS Word or by using bold or coloured text.

To submit a revision, go to <https://rp.tandfonline.com/submission/flow?submissionId=21808902&step=1>. If you decide to revise the work, please submit a list of changes or a rebuttal against each point which is being raised when you submit the revised manuscript.

If you have any questions or technical issues, please contact the journal's editorial office at RADY-peerreview@journals.tandf.co.uk.

Because we are trying to facilitate timely publication of manuscripts submitted to International Journal of Adolescence and Youth, your revised manuscript should be uploaded by 28-Mar-2023. If it is not possible for you to submit your revision by this date, we may have to consider your paper as a new submission.

Once again, thank you for submitting your manuscript to International Journal of Adolescence and Youth and I look forward to receiving your revision.

Sincerely,A

Comments from the Editors and Reviewers:

Reviewer: 1

Comments to the Author
Comments for authors

Introduction

In general, the introduction built by the author is very clear and coherent. However, the author needs to provide a little explanation regarding the contribution of spiritual norms that live in Acehese society in general and formally in education to the formation of students' environmental behavior.

P.1 Lines 49-51 " It is in line with the Qur'an revelation about humans as caliphs, which means successors and guardians on earth who are tasked with maintaining and preserving the earth created by Allah SWT (Sanjotis, 2012)". As is known, it is important that the context is mentioned in the Qur'an to provide a detailed explanation.

Research methodology

It is important for the author to provide demographic information for the research sample in tabular form to make it easier for the reader.

Research findings

It is OK and good described

Discussion

The discussion has been well described by the author, but suggestions for the writer add to the relevance of the contribution of spiritual norms that live in Acehnese society and how the contribution of spiritual norms in formal schools maximizes students' potential to behave in the expected environment.

Conclusion

The author needs to add limitations and suggestions for further research.

Reviewer: 2

Comments to the Author

Comments for author

Introduction

In the introduction part, the author needs to provide a brief description of the background of the importance of environmental education or disaster education which is taught or disseminated to the people of Aceh, especially among the youth.

Furthermore, the author needs to provide a little explanation regarding the policies or programs that have been implemented by the University of Syiah Kuala in helping to shape student environmental behavior.

Research methods

The method as a research process or procedure carried out by researchers has met the standards in carrying out, collecting and analyzing data.

Research result

Given the research methods that are clear and in accordance with the research objectives, the research data presented has provided an overview of what the author wants to achieve.

Discussion

In the discussion section, it is important for the author to provide a strengthening explanation of the importance of environmental education or disaster education being taught to the people of Aceh with various relevant empirical evidence.

Furthermore, the authors need to add a little relevant empirical evidence from the programs or policies of the University of Syiah Kuala in particular and in general the policies of the Aceh government that contribute to shaping community environmental awareness or behavior.

Conclusion

Suggestions for further research are needed for other researchers to be able to find formulas or efforts to maximize the increase in community environmental awareness or behavior.
