PLEASE DO NOT ALTER THE SUBJECT LINE OF THIS E-MAIL

Dear Author

The proof of your article, to be published in **GACETA SANITARIA**, is attached to this e-mail as a PDF file. Also attached are instructions on the annotation of PDF files (notas.pdf). A 'Query Form' is also included as the front page of the proof, detailing any questions regarding your article that have arisen during the preparation of the proof.

We will do everything possible to get your article published quickly and accurately, to do this we need your cooperation. Please respond promptly (48 hours), even if you have no corrections: the sooner we hear from you, the sooner your corrected article will appear online. Please note that any delay in returning your corrections could result in a delay in publication and that any significant changes to the article as accepted for publication will only be considered at this stage with the permission of the Editor.

Please note that proof corrections can now be annotated on-screen, which allows you to mark directly in the PDF file, and return the marked file as an e-mail attachment. See the attached instructions for further information.

Alternative methods of returning proof corrections:

If you do not wish to use the PDF annotations function, you may list the corrections (including replies to the Query Form) in an e-mail and return them to us using the 'reply' button to this e-mail. Please list your corrections quoting line number.

If, for any reason, this is not possible, mark the corrections and any other comments (including replies to the Query Form) on a printout of your proof and fax this to the number given below, or scan the pages and return them by e-mail.

We prefer to receive your corrections by e-mail or fax so that we can process your article quickly and efficiently. However, if you wish to return your corrections by post then please contact us and we will provide the full postal address.

For further assistance, please visit our customer support site at <http://support.elsevier.com>. Here you can search for solutions on a range of topics. You will also find our 24/7 support contact details should you need any further assistance from one of our customer support representatives.

Article title: Clean water supply vulnerability model for improving the quality of public health (Environmental Health Perspective): A case in Spermonde Islands, Makassar Indonesia

It will be published in: Health Gazette

Dear Dr. Birawida,

We recently sent you the proofs of the article mentioned above. Our records indicate that we have not yet received your corrections or your approval to publish it unchanged.

Please notify us as soon as possible if you have not received proofs of your item.

If you have not already done so, please send us your corrections or your approval to publish the article as soon as possible (you can send us only the pages that contain corrections).

Proofs should be used solely to review typesetting, editing, completeness, and accuracy of text, tables, and figures.

Thank you for trusting us with your great work last year Σ Kotak Masuk x

Letter from the Elsevier Journals Leadership Team

“2021 saw continued challenges for many of us in both our professional and personal lives. Whilst publishing academic research is always a milestone achievement, it is perhaps even more so under recent times. At Elsevier, we recognize you have a choice of journals to publish your work in, so we are honoured to
