Dear Editor,

Thank you very much for the decision to accept my manuscript for publication in Marine Pollution Bulletin.

Please let me know if anything I need to do except waiting for the paper to be sent to me for correction before publishing.

Best Regards,
Rohani

Marine Pollution Bulletin

Dear Nani,

I am pleased to tell you that your paper has been accepted for publication in the Marine Pollution Bulletin.

U.S. copyright law has resulted in publishers (including those outside the United States) asking for specific transfer of copyright from the author(s) to the publisher. You will receive a copyright form in due course. This should be returned with your corrected galley.

Galley proofs will be sent to the first author (or named correspondent) of multi-author papers. This should happen within a few weeks. Following your return of corrected proofs to Elsevier your paper will appear in the journal part of 'ScienceDirect', in .pdf form available to subscribers.

We have introduced .pdf proofing. Authors will be sent a .pdf (Portable Document Format) file of the proof of their manuscript by email for them to check. Diagrams and illustrations are reproduced photographically from the material submitted and proofs of them should be supplied. Please check these too. Corrected proofs should be returned promptly to the publisher.

An order form for reprints will accompany the proofs and this must be sent to the publishers in advance of publication.

Thank you for submitting your paper to the Marine Pollution Bulletin.

Comments from the Editor and Reviewers can be found below.

When your paper is published on ScienceDirect, you want to make sure it gets the attention it deserves. To help you get your message across, Elsevier has developed a new, free service called AudioSlides: brief, webcast-style presentations that are shown (publicly available) next to your published article. This format gives you the opportunity to explain your research in your own words and attract interest. You will receive an invitation email to create an AudioSlides presentation shortly. For more information and examples, please visit <http://www.elsevier.com/audioslides>.

Thank you for submitting your work to this journal.

With kind regards,

Charles Sheppard, PhD
Chief Editor
Marine Pollution Bulletin
