Dear Sir/Madam,

My paper have been published online first in Journal of Environmental Science and Technology (JEST) website (paper no. 76531). I have read it and still found small mistaken in words that a bit disturbing me.

Could you please fix it before the paper go to the final publication online?

I attach the paper with highlighted in yellow for the words needing to be corrected.

Kind Regards,
Rohani Ambo-Rappe

Dear Rohani Ambo Rappe,

Thanks for your e-mail.

Sir it is to inform you that according to our journal format we can write either "Fourteen kilometer from the coast..." or "The 14 km from the coast..." on page 2 in Materials and Methods section.

Now we are processing your article as it is "Fourteen kilometer from the coast..."

I hope I have clarified your concern

Regards
Zunaira Mahmood

Dear Zunaira Mahmood,

I am sorry for my late responses on your email.
I have read the last version and the recent format is ok and I accept it.

I already found my article when I browsed in google, but I do not know why it did not yet appear in my Scopus list document, it may takes few times.

One more thing, I spot on the paper that the paper is not yet completed for the date on when it is received, accepted, and published. This might still in process?

Thank you very much for your help.

Very Best Regards,

Rohani Ambo-Rappe

Dear Sir/Madam,

I have read the online version of my published article, but still found one mistake.
If it is possible, could you please correct that mistake for me.

The rest of the paper looks very good. It just need to put information on date of Received....Accepted....Published.

Best Regards,
Rohani
