We have reached a decision regarding your submission to **Open Access Macedonian Journal of Medical Sciences**, "Evaluation of Interleukin 6 Level Before Chemotherapy in Acute Lymphoblastic Leukemia L1 Standard Risk and High-Risk Patients", Manuscript ID = OJS9417.

Our decision is: Revise your manuscript until May 16, 2022 and submit on the OAMJMS website.

Sincerely,
Prof. Dr Mirko Spiroski,
Editor-in-Chief, OAMJMS

1. Authors should specify what they meant by standard risk and high risk in the method section
2. I also recommeend further Interleukin 6 (IL-6) analysis based on ALL subtypes if possible
3. Table 2 contains Indonesian language. It must be revised.
4. References in the manuscript are too few. More reference should be cited.

Recommendation: Revisions Required

.....
Reviewer B:

The manuscript is well-written and has adequate methodology. No major flaws are found in the manuscript other than relatively small sample size. I recommend it for acceptance.

Recommendation: Accept Submission
